## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jack Friedman (Reg. No. 44,688) on August 23, 2005.

The application has been amended as follows: to overcome the references cited. Cancel claims 21-22, 24, 27-28, 31, and 36-39 without prejudice.

### ***Allowable Subject Matter***

2. Claims 23, 29-30, 32, and 35 are allowed.

The following is an examiner's statement of reasons for allowance:

For claims 23, 29, the reference of Reimann cited in the previous Office actions does disclose a method for forming a conductive path having a conductive element forming a conductive pad extending beyond a surface of a laminate, further, Rosenthal et al. (US 3,105,769) shows a sphere conductor (22) embedded into an insulator (10), but not extended beyond a surface of the insulator. However, they do not teach or render obvious in combination of the method having the conductive element, which is a sphere (as recited in claim 23), formed the conductive pad and extended beyond the

surface of the laminate, and a top surface of the conductive pad is coplanar with a top surface of the upper portion of the conductive element (as recited in claim 29). Also, there is no teaching or suggestion to modify these references to include this limitation.

For claims 30, 32, and 35, Reimann does disclose a structure having upper and lower portion of a conductive element embed into the laminate. However, Reimann do not disclose or further in view of any references cited that they fail to teach or render obvious in combination of part of the upper portion of the conductive element that extends above a conductive pad. There is no teaching or suggestion to modify these references to include this limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T Dinh whose telephone number is 571-272-1929. The examiner can normally be reached on M-F.
